

Grand American Modifieds Staying for 2011 Race Season!

Thursday, 16 December 2010 11:43 -

December 16, 2010

Colorado National Speedway Ownership and Management would like to announce a division change for the 2011 race season. As most of you are aware, the Grand American drivers were notified that the Grand American division was being dropped at CNS effective 01/01/11 due to a number of factors. After listening to our racers thoughts and concerns we went back to work to come up with a possible alternative solution. After much discussion, we have decided to combine the Grand American Modifieds with the Modified Coupes for a period of 1 year. Both Divisions have struggled with car counts and this will be our last attempt to help build these classes back up to where they belong in order to maintain an individual class going forward. We believe this will enhance the entertainment value of the product we put in front of our fans each week, as well as provide the participants in each of the two classes an opportunity to increase car counts and build strength within their respective divisions.

Each division will run their own rules, and be awarded separate points. We hope this will allow both divisions to eventually return back to separate divisions. We at CNS are excited about this new combination and will work very closely with both CARC and the Grand American drivers and owners to work through the inevitable challenges that will result from this change. We feel it's the right thing to do for all of our racers in these divisions that have supported our track over the years, as well as our fans who deserve strong, full field classes to watch each week.

In addition, we have unfortunately also found it necessary to drop the Bus class from the 2011 schedule. As a result of these changes, the Figure 8's will replace the GAM's as our 5th NASCAR Weekly Series Division, receiving all of the recognition and awards that come with being a sanctioned class.

Look for our 2011 race schedule in the coming days!

Happy Holidays

Colorado National Speedway Owners and Management.
