

Rocky's Autos Late Models

A beautiful Colorado summer evening was settling in and last weekends twin 40 lap feature winners Cris Muhler and Darren Robertson were set to battle along with 17 other of the best late model drivers in the country.

When the 40 lap main event started, #10 Tyler Chrisinger had the pole with #27 Roger Avants on the outside. #03 Happy Ferree had the inside of row two with the intimidating #11 car of Darren Robertson beside him. #95 Chris Muhler was on the outside of row 3.

When the green flag waved, Chrisinger moved to the front as Muhler sped into 3rd. Robertson saw an opening on lap 5 and took the lead. The speedy #42 Ronnie Hults found his way from 8th to 4th. There they were, Robertson, Muhler, Chrisinger and Hults 4 of the fastest at CNS. Neither Muhler nor Robertson gave an inch to the other as they sped round, swapping paint, lap after lap. Meanwhile Hults was a mere car length behind and gaining.

At lap 31 the leaders were approaching lapped traffic. The three leaders navigated through the lapped traffic while staying within striking distance of each other. It was Muhler in 1st, Robertson in 2nd and Hults in 3rd. Robertson pressed onward. Muhler wasn't giving a thing! At the white flag Robertson pulled up past Muhler on the inside. On the final lap, Muhler took back the lead in dramatic fashion. At the checkered it was #95 Chris Muhler for the win with Robertson following only a few inches behind. Ronnie Hults was 3rd followed by #12 Bruce Yackey in 4th and #27 Roger Avants in 5th.

Coming out of turn 4 on lap 1, Harkins, Whittar, Neff, Vanderwal and Happy Ferree came around like a pack of hungry wolves nipping at each other's heels. Harkins came out on top and his lead widened as Ferree patiently navigated through the field and moved into 3rd. At lap 7, contact between Vanderwal, Ferree and Neff caused Neff's #32 Truck to spin out into the dirt. Neff lost his position and the gang slowed down for the yellow. On the double file restart Happy sprang into the lead as Neff who was in the back of the field, slammed into the wall coming out of turn 4 and left the track.

Comfort Shack Sportsman

24 sportsman marched tightly in double file like a platoon ready for battle. With the sun setting to the west, these cars looked ready to impress. #58 Jeff Webb had the pole with #84 Bruce Bochart on the outside. #46 Blackey Blackard had the inside of row 2 with #62 Jim Bob Rogers on the outside.

Bochart and Jim Bob burnt rubber as they made their way to the front of the field. Before long Jim Bob pulled to the inside of Bochart and the two made it an old fashion barn burner through several laps. A spin out toward the back of the field resulted in caution and the crowd waited anxiously for the battle to commence.

The ground shook as the 24 contenders approached the green flag. It was déjà vu as the Jim Bob in the 62 and #84 Bruce Bochart went right back at it. Jim Bob made short work of the duel, taking the lead by mere inches. Yet another spin brought on another double file restart. Jim Bob and Bochart went back at it like old rivals lap after lap. It seemed Bochart would come out victorious but Jim Bob dug his tires into the track and kept with him. You could throw a blanket over the top ten cars as they all battled for position.

With 2 to go, Bochart made a mad dash for the lead leaving Jim Bob to lose 3 places. #84 Bruce Bochart took the win along with the insane applause from the enthralled crowd. Jeff
